

DOMINIC ESCOBAR RUBIO

Software Developer · Web Design & Development

Tijuana, Baja California, Mexico | (664) 770-1471 | dominic.escobar.rubio@gmail.com | github.com/Dominatricxx

PROFESSIONAL SUMMARY

Software Engineering student (UABC) with hands-on experience in web development (HTML, CSS, JavaScript) and cross-platform software development (Python, Java, Kotlin, C++). Creator of ControlHerbal, a system that integrates hardware (Arduino), mobile and desktop applications (Kotlin Multiplatform), and a Python machine learning model. Additional background in technical support and LAN networking. Fast learner, focused on problem-solving and functional code.

TECHNICAL SKILLS

Programming Languages: Python, Java, Kotlin, C++, SQL

Web Development & Frontend: HTML5, CSS3, JavaScript, React, Next.js, TypeScript

Backend & Databases: Node.js, MySQL, Firebase

Tools & Systems: Git/GitHub, Docker, Kubernetes, Linux, LAN networking, Postman

PROJECTS

ControlHerbal — Cross-Platform Herbal Monitoring & Control System

Kotlin, Kotlin Multiplatform, Python, Arduino | github.com/Dominatricxx/ControlHerbal

- Designed and built a cross-platform system (mobile, desktop, and Wear OS) for monitoring and controlling an herbal crop.
- Integrated Arduino firmware for sensor readings and trained a Python machine learning model to analyze the collected data.

PROFESSIONAL EXPERIENCE

Prestige Call Center

October 2021 – February 2022

IT Assistant

- Configured and administered the office LAN network, ensuring stable connectivity for the entire team.
- Performed hardware installation, assembly, and maintenance, while providing ongoing technical support to agents and administrative staff.
- Standardized the computer setup process for new users and remotely managed the company's technology inventory.

EDUCATION

Universidad Autónoma de Baja California (UABC)

B.S. in Software Engineering | Tijuana, B.C. | August 2023 – Present

B.A. in Graphic Design (not completed) | Tijuana, B.C. | August 2019 – March 2021

Colegio de Estudios Científicos y Tecnológicos de Baja California (CECyTE BC)

Technical Degree in Programming | Tijuana, B.C. | February 2016 – June 2019

CERTIFICATIONS

- Python Certification (v9) — freeCodeCamp, 2026. Officially verified certification including hands-on projects and a final exam.
